ALOHEN Profile **2017**

ALOHEN is a private Company Located in Mafinga-Iringa dealing with Beehives and other related Bee-keeping equipment's, all our hives are manufactured here in Tanzania (not imported) with quality kiln dried pine patula timber and well smoothened to make a better and suitable home for bees.

Our hives are strong durable and withstanding all environmental condition with a life span of more than 30 years.

Our hives are designed with very strong and effective Hive doors to lock the bees inside during re-location or transportation.

"The door locks are designed in such a way that you can calibrate entrance to match the size of the bees in order to avoid entry of unwanted pests such as the Hive beetles, Wasps etc."
