Description:

Change your voice over Internet and PC Phone; Talk in male, female, teen, baby voice to have online fun in chat room; Create many voices for movie; Also change music; Record chat, phone, internet radio, music; Add effects to enhance voice or background; Compare changed voice to another's voice for simulation purpose; Compatible with YIM, MSN, AOL, ICQ, PalTalk, Odigo, Netmeeting, Roger Wilco, and media players, CD players, Karaoke players

Disguise sex and age for online fun
No matter they are male or female, young or old, you still can i°catchi± them with this voice alteration software. Now that you can disguise your voice, playing the role of a passionate gentle man, or a sexy chick, or a naughty teen gal is just as easy as apple pie.
How does Voice Changer Software Diamond work? Thanks to its Pitch and Timbre table and Equalization settings, this voice alteration software allows you to create unlimited number of pitch-timbre levels. Equalizer and Advanced Tuner can be adjusted accordingly to help normalize the new voice to make it more natural.

Change voice to be anonymous in voice chat
Browbeaten by bad chaps? Not allowed to play adult games? Want nobody to recognize your real

identity? Now with voice alteration software, you not only can escape othersi¯ threats but also do i° haunti± them the other way round. Like a i°ghosti±, you can roam freely in voice chat rooms and online games. Being anonymous, you can play tricks on your buddies or, who knows, catch your hubby (or wife) in the act.
Try Voice Changer Software Diamond now, youi¯ll become totally anonymous in voice chat.

Change voice and effect to music
In addition to changing useri¯s voice, Voice Changer Software Diamond helps you change voice and add effect to music playing. Now you can listen to music online (and offline) in your own way. Imagine the big surprise when Britney Spears sings her i°Baby one more timei± in the voice of a young guy or an old man; Bon Jovi sings the well known song i°Iti¯s my lifei± with a childish or girlish voiceiand more different voices depending on your i°talenti± and creativeness. Furthermore, you can add dozens of effects to songs playing from the list available or downloadable from our web site.
The voice alteration software includes a Recorder, enabling you to save the changed music as i° newi± songs and make your remix CD ¨C wow a cool gift for friends!

Create different voices for movies, web sites...
Voice Changer Software Diamond is not only an online voice alteration software for voice chat but also for business purposes. Moviemakers and storytellers can create different voices for your various characters from one single voice. Voice Changer Software Diamond is also used to make voices for commercials, presentations, reports, recorded lectures, narrations, lessons, auto greetings, voice mails, voice greeting cards etc.
Besides the basic algorithms of Pitch-Timbre changing, you can make full use of the available tools to create new voices such as Advanced Tuner, Effects, i°Nickvoicei±, Equalizeri. i°Nickvoicei± list and i°nickvoicei± rules are the 2 helpful items you will need when managing a lot of voices at the same time.

Enhance voice quality
Not happy with your own voice? Want to make it sweeter, warmer, sexier, or more impressive? Needless to undergo a i°surgeryi±, Voice Changer Software Diamond will improve your voice dramatically. So be confident when you speak online or record your narrations.

Change voice when you sing karaoke
Imagine you singing karaoke with a much more beautiful voice, or with many different voices in one song. Voice Changer Software Diamond can also record your song, then retouch further, if you wish, to make karaoke album.
Voice Changer Software Diamond is compatible with all PC Karaoke Players. You can also use this voice alteration software with a regular karaoke device if your PC Line-out is connected to it.

Imitate someone's voice
One of Voice Changer Software Diamondi¯s cool features is the new voice simulator, which helps you to imitate someonei¯s voice. Voice simulator tells you the similarity of the voices in voice pitch, voice timbre and intonation. Based on this result, you can adjust the pitch-timbre, frequency levels or apply effects in Voice Changer Software Diamond to change your voice most similar to the target voice. You can ask voice simulator to auto simulate voice as an alternative.
To use voice simulator, open Comparator module in Voice Changer Software Diamond. A list of voice samples from famous movie stars, singers, artists, film directors, Presidenti is available for you to practice imitating. To compare your voice with a target voice not from the available list, press i°Addi± next to the sample list to add your voice sample.

EfreeDown.com does not support the use of pirated software. Instead of using a "free" crack or serials to programs that you have not bought, you should buy the software. You support future software development by not using cracks or a serial key that is not your own.

Record chat conversation, online audio, music, voice
Voice Changer Software Diamond is both a voice alteration software and a home recording studio software. You can record chat or telephone conversations, capture any online audio, music or voices, then store in your hard disk in MP3 format. You then can manipulate your recorded voice or music, retouch, remix, add backgroundi

Play MP3 music and other formats
In Voice Changer Software Diamond, when you playback your recorded file, a built-in MP3 player will be prompted and play automatically. This helps improve your recording performance and time saving. This MP3 player can play and modify music in 12 different file formats such as mp3, wma, wav, aif, au, irc, nist, ape, cda, mp2, ogg, asf. You can make it i°agreei± with the voice changer module to morph or non-morph the music being played.

Enhance voice and music playing
Exclusively in Voice Changer Software Diamond, you have advanced voice and music quality controls in addition to enhancing voice and music by Equalizer and Effects. New morphing tools include: Frequency Morpher, Voice Equalizer, and Sound Quality. With these advances, you can control the output voice quality more effectively.

Reduce noise and maximize volume
Reduce noise and enhance background audio is an important step after having your audio recorded.

Specialized to minimize the noise or background audio distortion, Limiter and Noise Reduction in Sound Quality are very helpful for you to improve the sound quality.

Free library of "nickvoices", effects, and celebvoices
As an owner of Voice Changer Software Diamond, you can download of our rich library of newest and coolest i°nickvoicesi±, effects and celebvoices, which are FREE for Diamond Edition only. If you own a Full Version of Voice Changer Software Diamond, please follow the download link on the left menu in our web site to access our download store.

Optimal usability for audio file manipulation
Voice Changer Software Diamond is extremely useful for those who wish to use many different chat tools with different nickvoices (each nickname has a favorite nickvoice). The Nickvoice Rule allows you to stick a specific i°nickvoicei± with a specific application, e.g Yahoo Messenger, Skype, Net2Phonei so that you always have the right voice to the
