K-DEVELOPEDIA

About K-Developedia

K-Developedia is a comprehensive repository of Korea's development experience, launched by KDI School of Public Policy and Management in 2012.

K-Developedia includes last 70 years of Korea's development experiences on various socio-economic issues and outcomes of Official Development Assistance (ODA) carried out since 1982 with developing countries.

Mission

K-Developedia aims to provide *open access* to resources on Korea's development experience in an effort to be recognized as a complete research and knowledge repository.

K-Developedia targets decision makers in developing countries and researchers in the development field based on the motto, of *'sharing knowledge for shared growth of developing countries'*.

WHY K-DEVELOPEDIA?

Unique

K-Developedia is the one and only open access repository containing resources on Korea's development experience.

Up-to-Date

Resources, regardless of the type or format of the materials, are selected daily based on the need of our users. 1,041 statistical indicators on Korea's development are updated quarterly.

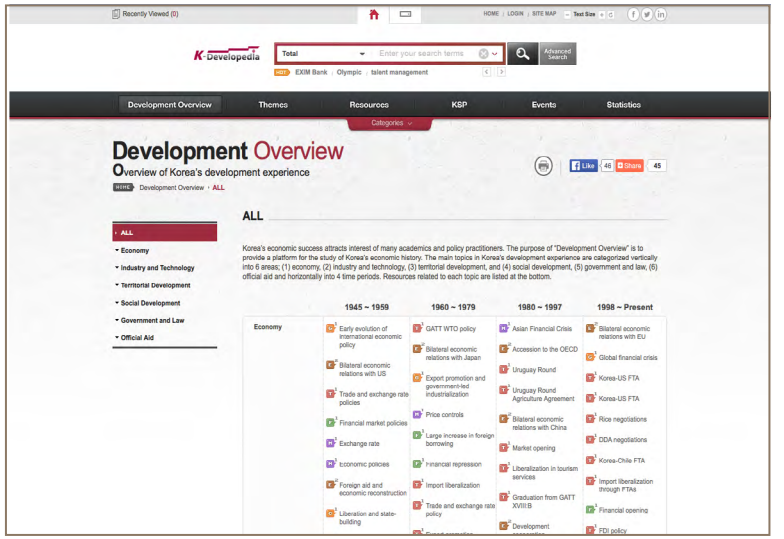

Reliable

K-Developedia's advisory committee, consisting of experts in the development field, selects resources and guarantees the quality of resources. K-Developedia has been selected as a major governmental portal in economics by the Blue House and other prestigious institutions.

DEVELOPMENT OVERVIEW

Overview of milestone events in Korea's development history

"Development Overview" includes summaries of 200 key issues on Korea's development over the last 70 years. Each topic is categorized in six areas and four periods.

Categories

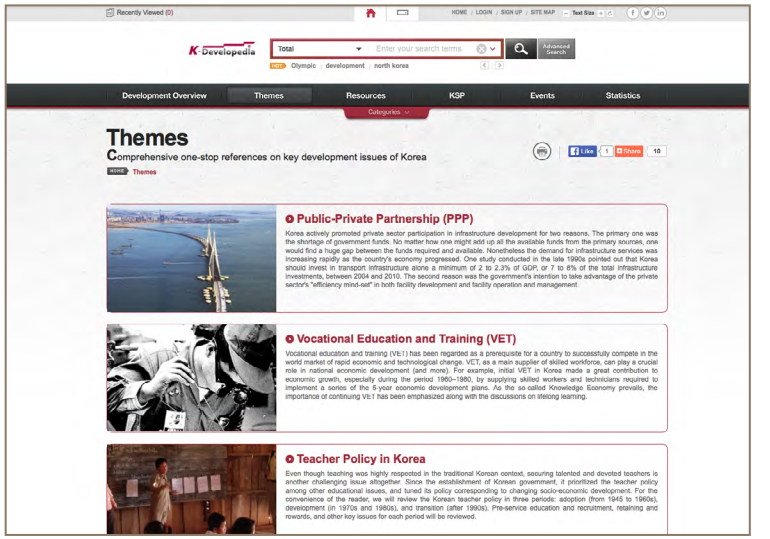

Economy I Industry and Technology I Territorial Development I Social Development I Government and Law I Official Aid

Period

1945-1959 I 1960-1979 I 1980-1997 I 1998- Present

THEMES

Comprehensive one-stop reference on key issues of Korea

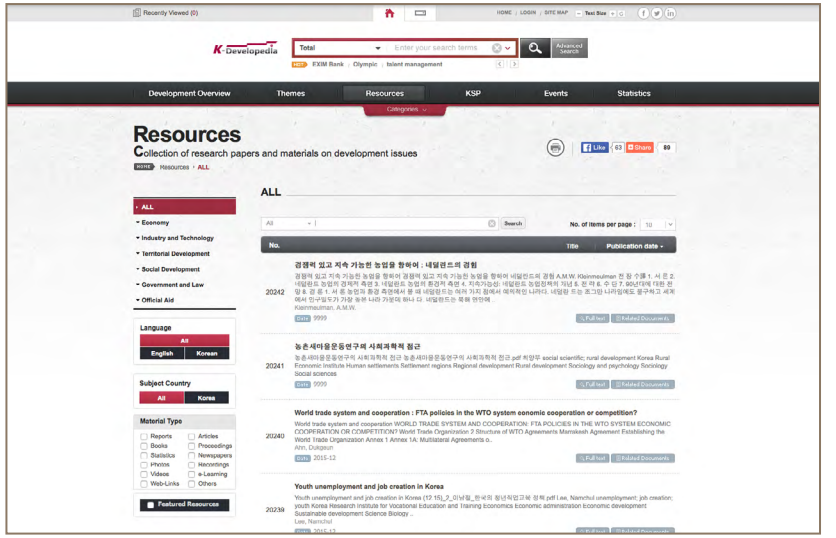

"Themes" is an integrated and comprehensive hub for information on Korea's development categorized by themes. This section includes brief summaries, relevant references, and contact information of experts on selected themes.

The objective of this section is to provide resources on development experiences and suggest solutions to decision makers in developing countries.

Sections on Public-Private Partnership (PPP), Vocational Education & Training, and Teacher Policy were launched in 2015. K-Developedia will launch references on an additional selection of themes soon.

RESOURCES

Collection of socio-economic research papers and materials

"Resources" is a collection of online materials with 35,000 full-texts available for downloads.

Resource Types

Journal Articles I Research Papers I Conference Proceedings I Photos I Audio Contents

KNOWLEDGE SHARING PROGRAM(KSP)

Outcomes of knowledge aid projects by the Korean government

"KSP" provides information on major development cooperation projects and consulting programs carried out in conjunction with partner countries.

Consulting Programs: Knowledge-based development and economic cooperation projects that are designed to share Korea's development experience

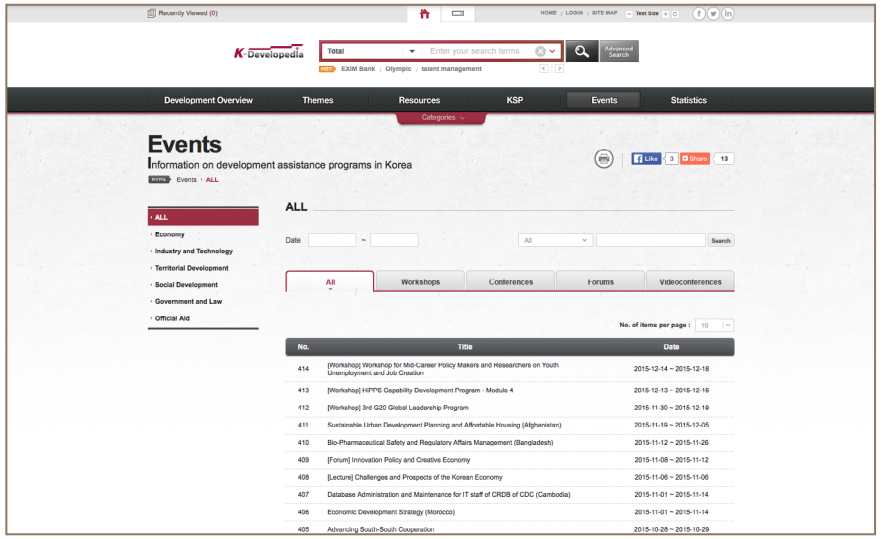

Development Cases: Comprehensive set of knowledge contents for effective knowledge sharing

Infrastructure Feasibility Studies: Resources from KDI's Public and Private Infrastructure Investment Management (PIMAC)

Capacity Building Workshops: Materials from workshops to enhance capacity of policy makers in developing countries by sharing accumulated experiences on development

EVENTS

Information on development cooperation conferences and workshops

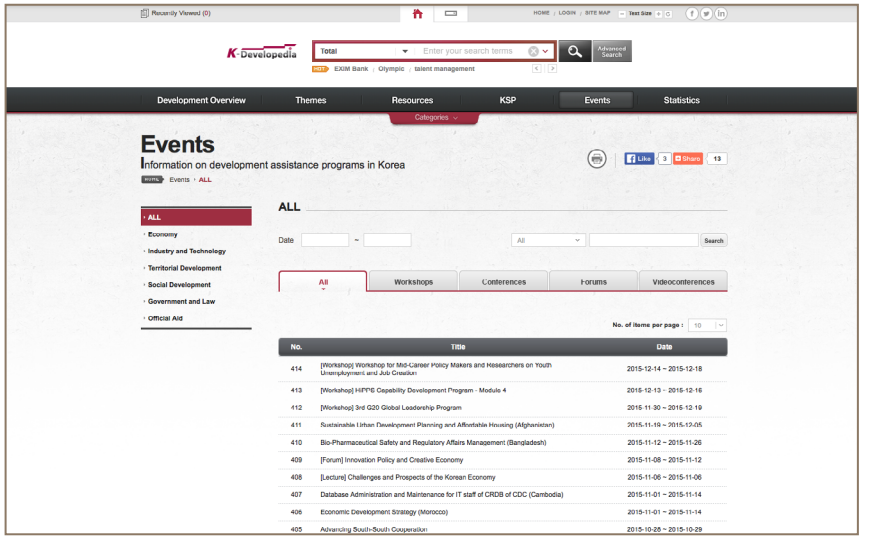

"Events" provides information on development assistance programs including workshops, conferences, forums, and videoconferences. Detailed schedules of events are released ahead of events with proceedings uploaded following their conclusion.

Event Types

Workshops I Conferences I Forums I Videoconferences

STATISTICS

Key development data for Korea and comparative data of 42 countries

"Statistics" provides 1,041 key socio-economic indicators of Korea. Comparative data is available for comparison between Korea and 42 other countries.

For each indicator, a table showing changes over time is available. Users can select a certain period and download data as an Excel spreadsheet for further research.

LINKS

"Links" contains web-links to key statistical data, country profiles, and development institutions.

WHERE WE ARE

2015 76,486 views (55,623 users)

Countries

In 2015, 209,759 page views were made and 55,623 people visited K-Developedia from 179 different countries. Among the 179 countries, the most frequent visitors came from the following countries.

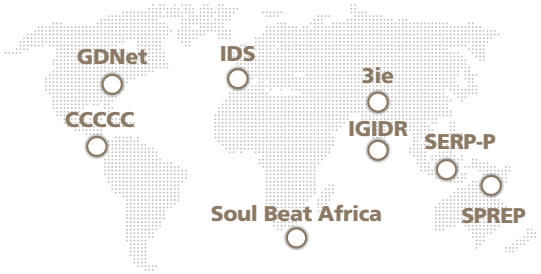

Data Accumulation

Partnership with the University of Sussex, Institute of Development Studies (IDS)

K-Developedia joined the Global Open Knowledge Hub (GOKH) project in October 2015. The purpose of these partnerships will be to increase the availability and accessibility of international development research by developing shared approaches and standards for data sharing and exchange. The GOKH aims to improve the supply and accessibility of contents used by development actors.
