DEAR GREAT THINKERS, HAPPY NEW YEAR. AND MARRY CHRISTIMAS

WE ARE DESIGNED TO BE "GREAT"

Let me introduce and share with you something that will be in one of my greatest books. I was shocked to find that "everyone born on this earth wants to be GREAT". This is absolutely true to all of us. Look at you… you want to be great don't you? Somewhere in your heart you know and believe that "am going to be great one day".

No matter what you have been through in your life. No matter how many disappointments you get in your life, "I will be great one day" will remain in you until you become great, or until you die. But I have been asking myself for sometimes now "WHY VERY FEW AMONG US SUCCEED TO BE GREAT?" Think about this…what makes us impact-less to our society, our country and our world? Why many fails and few succeed? YOUR MINDSET IS AN ANSWER.

YOUR MINDSET IS AN ANSWER

When I was using Jamiiforums, I met with the following statement "what dominates your mind is what controls your action". This statement is very important. That means if let say my mind says "I am poor", then I will continue being poor until when I change my mind and say "I was not designed and destined to be poor. I was born poor but am not supposed to die poor. I AM NOT POOR". My friend, this is one of greatest problem to all of us. And we have to fight against this ideology. This also explain why you are Using JF… we are busy fighting with our poor like ideology.

Have you ever met with someone who is very proud of himself/herself saying "MIMI NI MTOTO WA MKULIMA BWANA, MIMI NI MTOTO WA MASIKINI BWANA". And they use this as their excuse for WHY they are still poor. I don't mean that we shouldn't agree with our current status… no. but we will continue being poor until we change our mindset and say that we don't have to continue being poor.

THE MINDSET OF THE POOR AND THE RICH

The word mind itself is very complicated term (it will take the entire page to explain it).our mind is full of ideas. These ideas are obtained formally, informal and also through our past life experience. Collectively, ideas in our mind form what we call IDEOLOGY.

The ideology of the POOR is dominated by "I CANT" while ideology of the RICH is dominated by "I CAN". For example; both the rich and the poor may get an idea to do something. The poor will say "this idea is very good but I CANT do it because I don't have CAPITAL". And the rich will say "this idea is very good, I CAN do it, for now I DON'T have capital but I will find HOW TO GET CAPITAL"

You see; the poor ends with "I DON'T HAVE CAPITAL" while the rich goes beyond "I don't have capital" to "HOW TO GET CAPITAL". In other way I can say "an IDEA may need capital to be implemented, but capital itself need an IDEA on how to get it". Therefore; everything starts as an idea. Look at what you are wearing; this design of your cloth was once an idea in someone's mind. We don't need capital to THINK. Everyone thinks except the dead ones.

Now look at you… where do you end when you get an idea? Let us think differently. Let us fight with this ideology

HAPPY NEY HEW YEAR. Don't forget to praise the LORD GOD/ALLAH. STAY CONNECTED TO HIM

NEXT… 1. WHO IS RICH, 2. WHO IS POOR, 3. IS IDEOLOGY OF OUR POLITICAL READER POOR OR RICH LIKE PERSON?. 4. THE PURPOSE OF A NATION. 6. THE LEADERS AND THE PURPOSE OF NATION. 7. WHERE ARE YOU?. 8. WHY ARE WE POOR (do you know that being poor is not a problem? IT IS A SIMPTOM of a certain problem).
