Preface

The National Council for Technical Education (NACTE) through its mandate as spelt out in the NACTE Act, Cap. 129 of the Laws of Tanzania in collaboration with the Tanzania Commissions for University (TCU), National Examinations Council of Tanzania (NECTA), the Higher Education Students Loans Board (HESLB) and higher education institutions have improved the Central Admissions System (CAS) which has been in operation since 2010/2011 academic year. Through the system, applicants who want to apply for admission into higher education institutions are able to lodge applications online and be selected to programmes of their choice centrally. The selection process is based on the minimum programme entry and other requirements of each institution in the country including admission capacity and other parameters. The decision on the actual admission of applicants is then made by the individual institutions through their Governing Boards and Senates.

The Undergraduate Student Admission Guidebook is meant to provide the applicants with basic information on matters related to the entire process of admissions through the Central Admission System. The Guidebook indicates the programmes offered in each higher education institution as approved by NACTE or TCU. In addition, it indicates the minimum entry requirements, institutional capacity, fee structure for each programme, maximum loanable amount for programmes of national priority and other relevant information (For more information on Loans the applicants are advised to refer to the Guidelines and Criteria for Issuance of Student Loans and Grants for 2016/2017 academic year issued by the Higher Education Students' Loans Board).

The Guidebook provides a step-by-step procedure on how to apply through CAS using the Internet. Applicants are therefore, strongly advised to read the Admissions Guidebook before they start lodging their applications. For further inquiries, prospective applicants and the general public are advised to contact NACTE or TCU through the addresses indicated below:
